SUGGESTION BOX:

SUGGESTION: "Why don't someone get on the ball concerning the barber shop? The guys queue up ahead of time in the morning to get a hair cut and then one barber shows up. About an hour or an hour and a half later another bloke shows up. Why don't they get the blokes on the ball and all get there on time so the boys can get a haircut."

ANSWER: SB rejects the inference that the barbers do not do a full days work or that they are habitually late for work. These "Blokes" are very definitely "On the Ball", and it is no fault of theirs they can not take care of all the hair cutting on the station.

This condition will be alleviated just as soon as more barbers can be found, as an effort is being made at once to locate additional barbers. In fact any man who can cut hair is more than welcome to make this fact known to the Post Exchange Officer, and he can be almost certain of a job!
