Dear Bill:

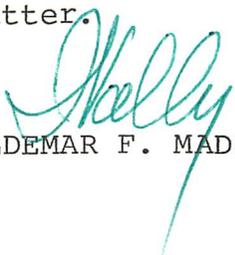

I was in England last month for several weeks and I went out to the base. Before going I got in touch with Gordon Richards. We went out to his home later and I happened to notice a copy of ECHOES. I asked him if it was still being published as I had not received any for over three years. He advised me that it was.

I got to thinking and remembered that I got divorced three years ago and I have a new address and I guess that's what happened.

My new address is either the office above or 380 Bayshore Boulevard, #208, Clearwater, Florida 33519.

Would you please put me back on the mailing list and also I'd like to have my name included in the new roster that Gordon Richards showed me. I was getting the ECHOES for several years but they suddenly stopped and now that I think about it I'm sure the reason is that I moved and my ex-wife did not forward the papers along to me.

Thank you for your help in this matter.
